ARI says, "Thank you!"

I raised \$1639 for ARI running in the LA marathon, with most of the money coming from my coworkers at Blue Cross of California in Woodland Hills. My son is a 13-year-old who has recovered from autism. He has friends and has no modifications or accommodations whatsoever and he earned straight A's last year and so far this year. I have always appreciated the work that ARI has done as they seem to give hope to people that something can be done to improve the condition. ARI is responsible for some of my son's cure and I will always donate my yearly money personally to your organization and will always appreciate what you have done for my family.

Bryce Miler, Simi, CA

A night of fun was had by all at our Spring Fling Party at the Lexington Country Club, Summerset Villa's Lake Village, in Ft. Myers, Florida. Everyone was asked to bring a dish to share, and music was provided. After it was over, we paid the bills and had a little left over. Everyone decided to send a donation for autism research. My daughter-in-law has a nephew who is autistic and it is a heavy burden on families.

Elizabeth A. Loparo, Ft. Myers, FL

Enclosed is money collected at a fundraiser held in our home during the holidays. We had a musician play at our house (Darryl Purpose) and we served chili and margaritas. Admission was \$20 per person, but next time I will charge double. We hope you continue your work, as your group has been the one that helped us the most through the DAN! conventions.

Kerri Sengaken, Oxnard, CA

Since 1967, ARI has conducted and funded "Research That Makes a Difference." Other organizations spend millions of dollars on "pie in the sky" projects that may help children who will be born 5, 10, or 15 years from now. Our efforts, in contrast, are bringing major improvement, and even recovery (yes, recovery!) to thousands of today's autistic children.

Please help if you can—and our thanks to everyone who already has!
